

MSC Band Saws

Menominee Saw Company's wood cutting band blades are manufactured using Uddeholm steel. All saws are plasma welded to insure they have the flattest and most consistent weld in the industry. The saws are ground using computer

controlled sharpeners to insure that all teeth are the same from tooth to tooth and from saw to saw. We can supply you with saws with one of

our time tested standard tooth shapes, or we can design a custom tooth based on your particular needs. We offer these saws in swaged tooth or Stellite® Tipped.

THE FLATTEST WELD IN THE INDUSTRY

PLASMA

WELDED BAND SAW BLADES

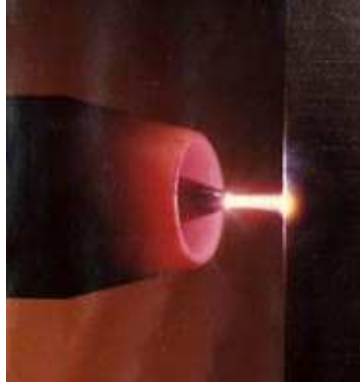

Together We Can Cut It!

Phone 800-582-0470

Advantages of Plasma Welding

- 👍 Fully automated computer controlled welding process
- 👍 More consistent welds from edge to edge
- 👍 More consistent welds from saw to saw
- 👍 Less distortion of saw in weld area
- 👍 Saw run flat against guide—No Guide Rattle
- 👍 Less stress in weld area

Concentrated Arc of the Plasma Torch

CNC SHARPENERS

- 👍 Exactly Match Customers Tooth Shape
- 👍 Time Tested Standard Tooth Shapes
- 👍 Custom tooth shapes based on your needs
- 👍 Consistent shape form tooth to tooth
- 👍 Consistent shape from saw to saw
